FULL CONTROL OF THE PRODUCTION

MIXOLOGY

"We have continually invested in high-performance production facilities for all our sites, particularly in France including French overseas territories, Scotland and Portugal.

Our strength lies in four main pillars of expertise :
Scotch Whiskies – Mixology - Ports, Brandies & Wines - and R
Craft from France spirits."

The full control of the elaboration process is the heart of our identity.

A FRENCH FAMILY GROUP SINCE 1934

Dear customers, friends, and partners,

In this period affected by serious geopolitical conflicts and high inflation, which impacted wine and spirits sales worldwide, our group has shown resilience reaffirming its long-term mindset.

The commitment of all our associates and the relevant positioning of our leading brands have enabled the La Martiniquaise - Bardinet - Marie Brizard Wine & Spirits group to accelerate its international development.

Our ambition remains unchanged: to continue to invest to build international brands with you, always with a focus on sustainable development.

I would like to personally thank each of our partners.

We will continue to write together the future of our company and build long term partnerships.

Jean-Pierre Cayard
President & CEO

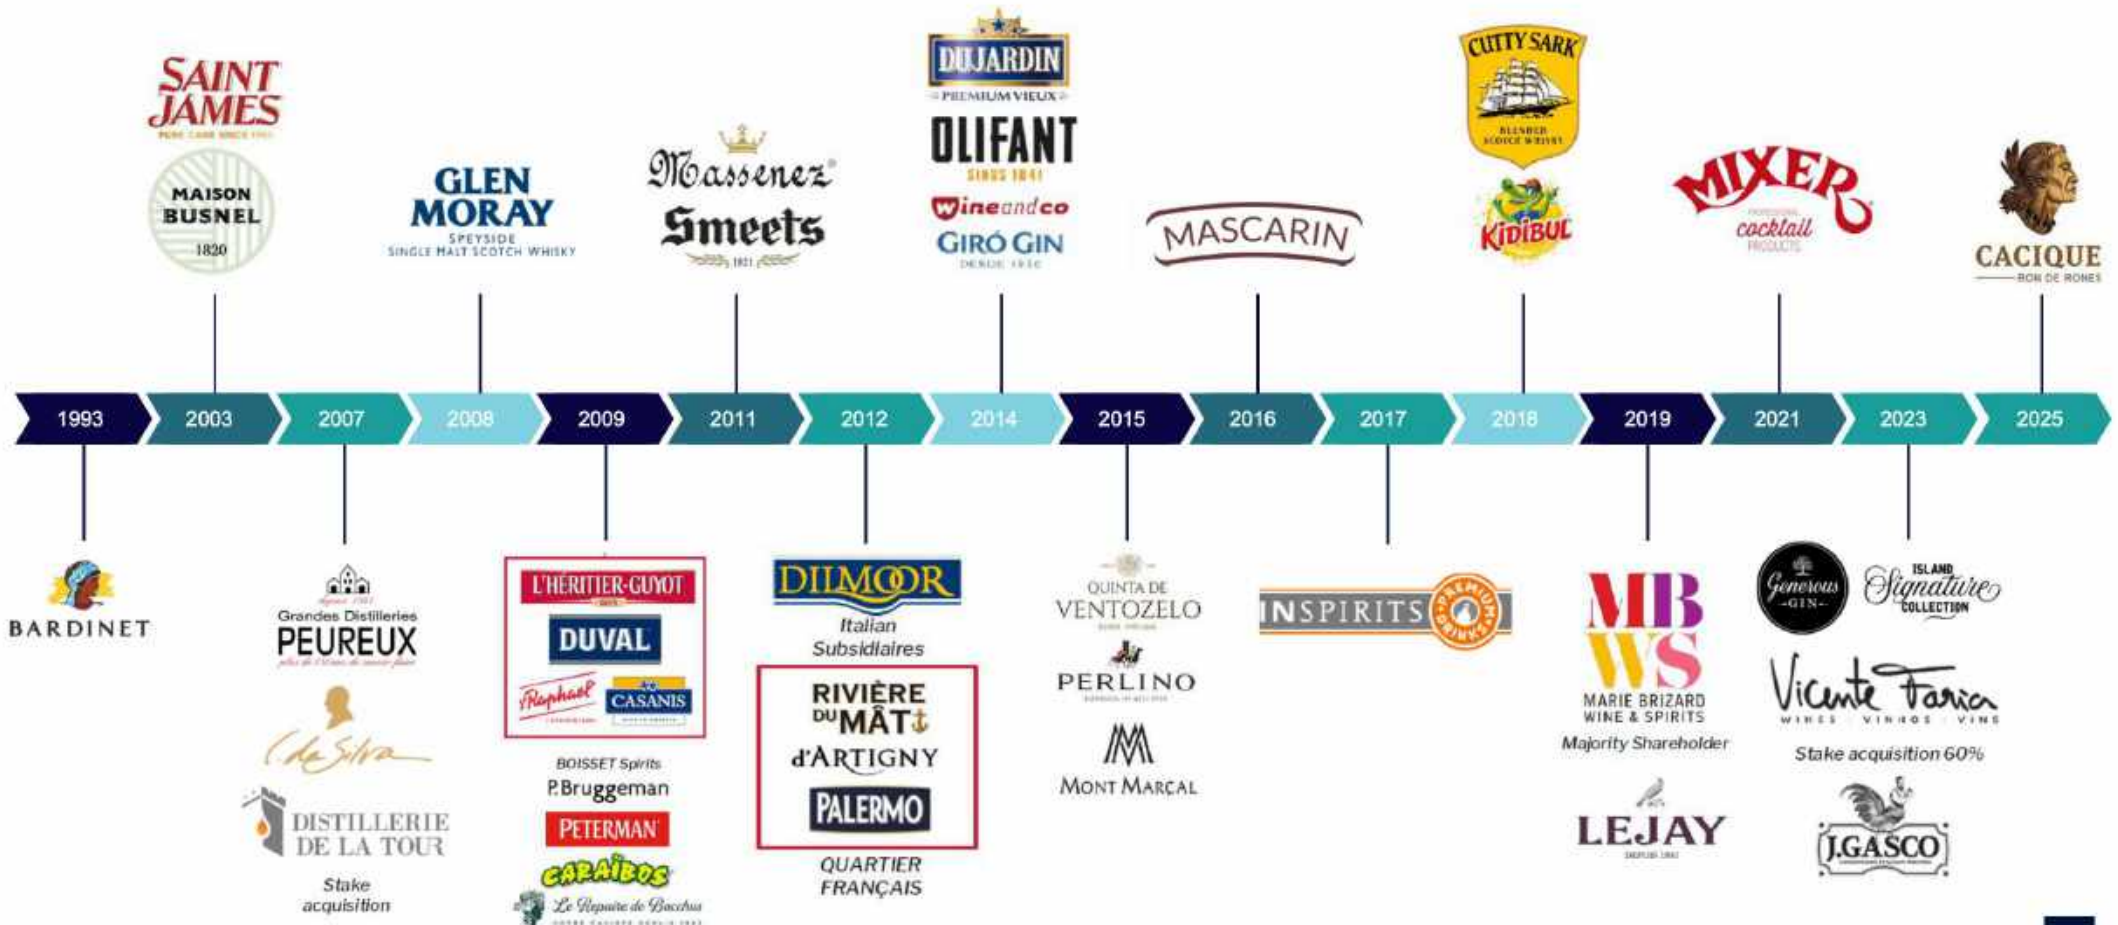

VISION & VALUES

The Wine & Spirits category offers a unique journey between preserved heritage and creativity, between terroir and entertainment, with complete control over production and sustainable development at its heart.

 INDEPENDENCE	in writing our history for the group's long-term interest.
 RESPONSIBILITY	responsible consumption, local engagement and sustainable development as a mission.
 EXPERTISE & PASSION	entrepreneurial spirit and commitment of all our people for excellence and craftsmanship with the support of a leading industrial force.
 LISTENING & AGILITY	listening to our partners, consumers & employees.
 INCLUSIVITY	to be open-minded, to integrate different backgrounds and cultures and address to all.

KEY PRODUCTION SITES

A photograph of the Glen Moray Distillery in Scotland. The distillery building is partially obscured by trees with vibrant autumn foliage in shades of yellow and orange. A tall, white smokestack with a black top is visible, emitting a small amount of white steam. The sky is overcast and grey. In the foreground, there are more trees and a stone wall.

SCOTCH WHISKY

Glen Moray Distillery, Scotland

OUR SCOTCH WHISHIES

IN THE WORLD'S TOP 5 SCOTCH WHISKY GROUPS

FIRST BLENDING COMPANY & STARLAW DISTILLERY

The only one of its kind in Scotland with a fully integrated production site.

- Spanning 48 ha – Edinburgh.
- Starlaw Grain Distillery: 25M LAP capacity per year.
- Extensive maturation facilities : 34 Warehouses 800 000 casks.
- Blending & Bottling up to 60 million bottles.

A total of 40 medals since 2022 for LABEL 5 & CUTTY SARK in the most prestigious international competitions.

Stephen Woodcock, Head of Whisky Creation

GLEN MORAY DISTILLERY

A renowned malt distillery founded in 1897 in the heart of Speyside.

- Single Malt production : 8.5M LAP capacity per year.
- 110 000 casks in our ageing cellars.

STARLAW DISTILLERY

A MULTI-SKILLED AND VIRTUOUS SITE

First green field distillery built in Scotland since 1964, a unique site combining distillation, ageing, blending and bottling to ensure full control over quality and reduce transport.

Massive investment underway to increase distillation & ageing capacity.

Thousands of trees planted around the distillery creating an ecosystem for wildlife.

100% GMO free.

A goal of 100% fossil fuel free production within 15 years.

SARK

Water protecting

Efficient water re-use technology saving up to 150 million liters per year of fresh water equivalent.

Energy saving

- 30% reduction in natural gas use (2018-2022).
- Continuous mashing and vacuum distillation.
- On-site cogeneration (production of heat and energy) since 2017.
- Improvement of the alcohol yield to reduce the amount of grain.

Energy production and effluent management

- Treated effluent feeding boilers with methane gas.
- Distillation by-products used for speciality animal feeds.
- On-site methanisation project underway.

GLEN MORAY

A DISTILLERY IN HARMONY WITH ITS ECOSYSTEM

A distillery on a human scale in the heart of its terroir since 1897.
A small team with a passion for Speyside and great Single Malts.

Proud to make an important contribution to its local community
and be part of the Single Malt Trail.

Careful selection of raw materials

- Non-genetically modified cereals only.
- Partnership with local maltsters and work on new barley varieties.

Water and energy saving

- Sustainable urban drainage systems to capture rainwater for our own use.
- 2016 distillery expansion to reduce steam use by 35%.
- Valorisation of effluents into biomethane representing 35% of the distillery energy demand.
- Overall energy consumption halved in 10 years.

A welcoming and vibrant distillery

- 30 000 visitors per year.
- A warm and family-like atmosphere.
- Shared values with the world of rugby and a partnership with Edinburgh Rugby team.

An aerial photograph of a lush, hilly landscape in Portugal. The foreground and middle ground are dominated by terraced vineyards, with rows of green grapevines following the contours of the hills. A winding river flows through the center of the image, reflecting the sky. The background shows more rolling hills, some with dense forests and others with more open fields. The overall scene is vibrant and scenic, typical of a wine-growing region.

PORTS BRANDIES & WINES

- At an altitude of 800 meters for a cool and temperate climate.
- Vinification of 7700 tons of grapes.
- Storage capacity of 220 000 HL.
- 100% gravity operation.
- Use of water in a closed circuit.
- Plot management and long-term relationship with the winegrowers.

œNOTOURISM IN PORTUGAL

A UNIQUE EXPERIENCE IN GAIA, PORTO
& THE DOURO VALLEY

Espaço Porto Cruz

A cultural, gastronomic and festive place to immerse yourself in the local culture and discover all the richness of Porto. The highlighting of young Portuguese artists in residence.

180 000

Visitors
+29%

Gran Cruz House

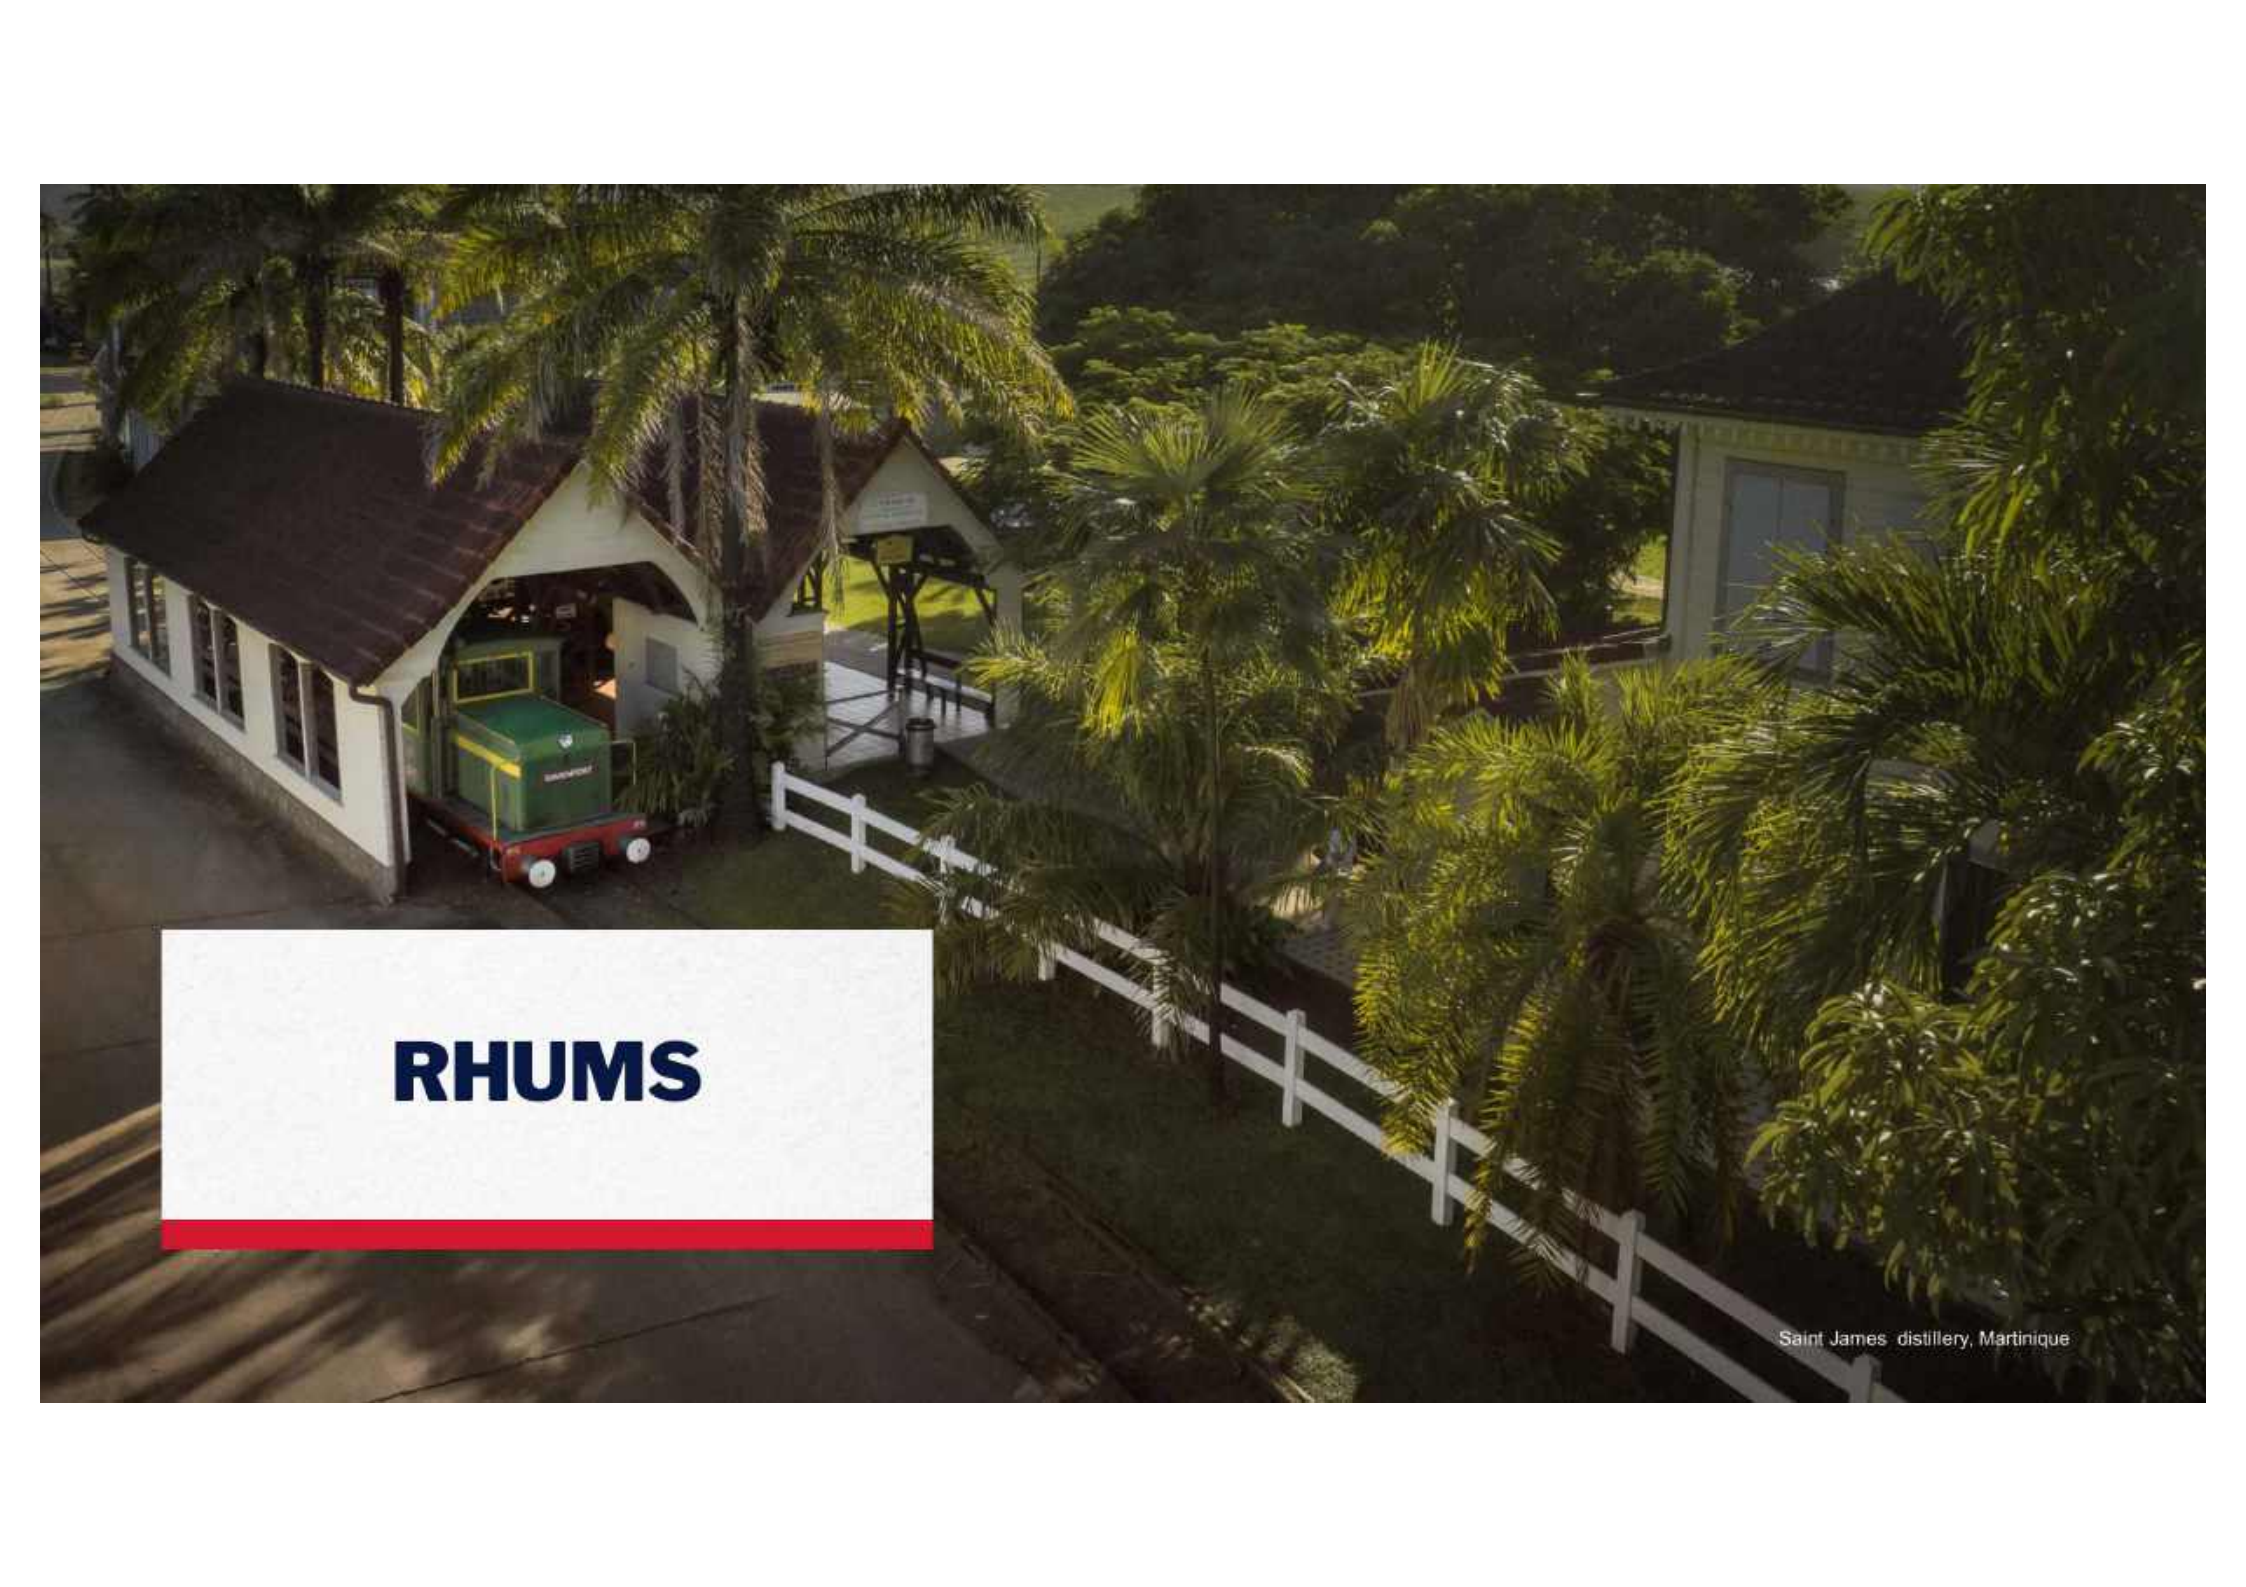

A boutique hotel and restaurant in a 16th century building where Portuguese hospitality takes on its full meaning.

Quinta de Ventolezo

A wine estate and eco-hotel in the heart of the Douro Valley. When terroir goes with serenity. One of the oldest quintas on an estate of 400 hectares, 200 of which are vineyards.

An aerial photograph of the Saint James distillery in Martinique. The scene features a small white building with a dark brown tiled roof and a green train engine on a track. A white picket fence runs across the middle ground, separating the building from a large, lush tropical garden filled with palm trees and other vegetation. The lighting suggests a bright, sunny day with long shadows cast across the ground.

RHUMS

Saint James distillery, Martinique

OUR RHUMS

No.8 PLAYER IN THE RUM CATEGORY WORLDWIDE WITH 5 LOW CARBON DISTILLERIES

No.1 PLAYER IN THE RHUM CATEGORY IN FRANCE

No.1 AGRICOLE BRAND WITH SAINT JAMES

MARTINIQUE

SAINT JAMES - DEPAZ - BALLY - DILLON

- 80 000 T of cane crushed each year.
- 8 Million liters production capacity (55%).
- 30 000 ageing casks.
- 5 Million bottling capacity.
- Opening in 2019 of Habitation La Salle Heritage Center and ageing cellars.

GUADELOUPE

DISTILLERIE BONNE MÈRE & BELLEVUE
Traditional rum distillery & Agricole rum distillery

Total production capacity :

- BONNE MÈRE > 60 000 HAP.
- BELLEVUE > 10 000 HAP.
- 11 000 casks.
- Stake holding in sugar refineries (600 000T of cane crushed).

REUNION

RIVIÈRE DU MÂT

- Distillery capacity of 75 000 HAP.
- 5500 casks.
- Large investments over the last 10 years.
- No. 1 for rum production in the island.

SAINT JAMES DISTILLERY

DISTILLING A GREENER FUTURE SINCE 1765

Martinique
island

Saint james plantations

- 400 hectares of sugar cane around the distillery grown without chemical inputs.
- 25 hectares of organic cane.
- C4 type sugar cane, a real carbon sink.
- Permanent R&D on new varieties of cane.
- More than 17 000 casks.

Decarbonised production

- A closed-circuit production thanks to the use of bagasse as an energy source.
- Treatment and recycling of vinasse through methanization.
- Use of the surplus of bagasse as natural compost.

A major touristic site

- 180,000 visitors in 2023.
- A dive into the history of rum and distillation.
- A visit to the La Salle habitation, a former 17th century sugar refinery.

DEPAZ DISTILLERY

BORN OF A VOLCANIC SOIL

130 000
visitors in
2023

Martinique
island

A unique terroir

- Depaz 400-hectare estate is in the heart of a volcanic terroir with young, fertile soil suitable for growing the blue cane varietal.
- HVE Level 3 certification and plots in organic conversion.
- 11 500 casks.

Agronomic excellence

- Crop rotation to rest the soil.
- Mechanical and manual weeding.
- Planting of 10 km of hedges to limit erosion.
- The practice of cuttings to limit sowing and the use of tractors.
- The creation of beehives on the estate.

Virtuous production

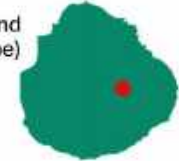

- Water consumption halved in 10 years thanks to rainwater recovery.
- 100% recovery of bagasse as energy or organic fertiliser.
- First distillery in Martinique to be certified ISO 14001.

BELLEVUE DISTILLERY

AN "ECO-POSITIVE" DOMAIN

Marie- Galante island
(Guadeloupe)

Marie Galante

- A 62-hectare plantation in the heart of a preserved terroir.
- Organic production on selected plots.
- Mechanical working of the soil to limit the use of chemical products.
- Ageing of 980 casks.

Green energy production and effluent management

- Solar panels with a capacity of 2 megawatts on site, capable of producing 3000 MWh.
- Cogeneration during distillation.
- 100% effluent recovery.

A site open to spiritourism

- A family estate open to green tourism with a shop featuring local craftsmanship.
- 25 000 visitors in 2023

RIVIERE DU MÂT DISTILLERY

No.1 RHUM PRODUCER IN REUNION

Founded in 1886, Rivière du Mât is one of the oldest distilleries still in operation in Réunion island. Part of the La Martiniquaise Group since 2012, the Rivière du Mât Distillery has embarked on an ambitious program to modernise its industrial facilities and reduce its environmental impact by deploying unique processes and know-how in distillation, methanisation and green energy production.

Réunion's largest producer and leader in aged rhums with 5500 casks and a unique know-how for crafting old rhums.
A new site open to the public since 2022.

Réunion island

The only rum distillery with 4 AFNOR certifications:

9001 - Quality :

Satisfy customers through rigorous implementation of product and service quality.

45001- Health and safety at work :

Ensuring safe working conditions for employees.

14001- Environment :

Reducing environmental impact to protect the planet and human health.

50001- Energy :

Controlling and reducing energy consumption.

CATEGORY
LEADER IN
FRANCE

RIVIERE DU MÂT DISTILLERY

EXCELLENCE AND INNOVATION

Réunion island

Massive investments

Engineering for carbon-free production with 3 objectives:

- To be one of the most environmentally friendly distilleries in the world.
- To produce great rum in the French tradition.
- To produce and supply carbon-free electricity to the local community.

Decarbonised production

- 2 methanisers allowing us to clean up and recycle 100% of our effluents.
- Production of "ferticanne" allowing planters to reduce their fertiliser by up to 50%.
- Investments in progress (2022-2024) to capture and recycle the CO₂ produced during the fermentation process.

Green energy production

- Production of green electricity (> 6GWh/year) from the vinasse.
- Bioethanol turbine providing electricity to 20,000 families.
- A new solar panel park.

➡ In 2024, Reunion Island will definitively abandon coal.
